Cedar Camp, No. 4727, W. M. of A. met in regular session Wednesday evening with 82 members present. Eleven applications for membership were presented, balloted on and elected. The following were adopted as beneficial members of Cedar Camp: E. J. Grant, Frank H. Markos, Joseph Binder, Martin H. Fair, and Chas. W. Sasser, and as social member, S. E. Wells. Several neighbors were reported sick.

The following resolutions were adopted on the death of our late neighbor, I. O. McDonald:
In Memoriam:
Once again the angel of death has entered our camp and taken from us our esteemed neighbor, I. O. McDonald. Therefore be it
Resolved, That we, the members of Cedar Camp No. 4727, W. M. of A., extend to the widow and children of our late neighbor our heartfelt sympathy, recognizing the hand of our most gracious Father, in this, their sad bereavement.

Be it Resolved, That as a tribute of respect to our departed neighbor, we drap our charter in mourning for a period of thirty days, and that copies of these resolutions be spread upon the minutes, published in the daily papers and a copy be sent to the bereaved family.

(Signed) O. B. Young, W. H. Rinehart, J. W. Shirk, Com.

The Forester team are making great preparations for their dance to be given on the night of March 8, 1900. Committees have been appointed and will endeavor to make this dance the best that they ever have given. The celebrated Marsh orchestra has been secured and good music is assured. All neighbors and their friends are cordially invited to come and enjoy themselves. Invitations will be given out soon and every lady must present her invitation at the door, as no improper characters will be admitted.

Royal Neighbors of America.

OIL PIPE LINES

In the State of Kansas Made Common Carriers

BLOW AIMED AT STANDARD

Gov. Hoch in Message Intimates State Will Withdraw from the Oil Business Later.

Topeka, Kan., Feb. 18.—The fight against the Standard is on. Kansas' desire for an oil refinery of its own was realized when Governor E. W. Hoch signed the bill appropriating \$200,000 for the erection and maintenance of a state plant, which was passed for the avowed purpose of fighting the Standard Oil company. In returning the law to the legislature, after affixing his signature thereto, Governor Hoch sent with it a long message in which he touched on the general question of trusts. The governor said that the present legislation was not an attempt to drive the Standard Oil company from the state, nor to deprive it of its rights; it is not an attempt to establish a monopoly already existing to be decent." He said that when normal conditions were again restored the state would be glad to withdraw from the business of refining oil and leave it in the hands of private competitors, "where it legitimately belongs." Governor Hoch urged the legislature to go further and adopt other restrictive legislation to prevent the manipulation of railroad rates by the Standard.

Governor Hoch continues: "No greater question confronts the American people than the control of these great aggregations of capital, all of them socialistic in their character, and which are antagonistic to the essential element of all national progress, the competitive system. A timely illustration of the coercive methods of these modern combinations of capital and of their menace to private and public weal was furnished in the recent telegram of the manager of the Standard Oil company petulantly and arbitrarily withdrawing its patronage from the producers in the oil fields. Were that order maintained thousands of good people would be bankrupt and homeless. An economic condition which makes it possible for one man with a stroke of his pen to bankrupt thousands of his fellow citizens is inherently wrong and will not be tolerated by a free and patriotic people, and it illustrates more forcibly than any recent event has done the necessity of a wise solution of this whole trust problem."

The Kansas house, without a dissenting vote, passed the bill making oil pipe lines common carriers. This is the second of the series of bills directed against the Standard Oil company, and was strongly opposed by the Standard interests. It has already passed the senate, and will be signed by the governor. Without this bill the refinery plant could not have been carried out successfully, owing to the lack of pipe lines owned by the state. Now, however, the state oil can be piped through the Standard's lines.

Standard Again Buying Oil.
Chanute, Kan., Feb. 18.—The Standard Oil company is again buying oil in the Chanute district, after refusing to take any for one week. The construction of the pipe lines in the territories is also again in progress. The Standard says it is taking only about 10,000 barrels of oil out of the field, but the producers say they are really taking more than that amount. Reports from Independence, Peru and other places indicate that the Standard is buying there also.

Another State Refinery.
Denver, Colo., Feb. 18.—A bill for the establishment of a state oil refinery has been introduced into the Colorado legislature. The bill provided for an appropriation of \$125,000 for the erection and operation of a refinery. The price of crude oil in this state has recently been reduced from \$1 to 80 cents a barrel.

THE EXPOSED MOTORMAN

Thos. J. Walsh of 532 N. 36th St., Philadelphia, Tells How He Rids Himself of Coughs and Colds by Taking Father John's Medicine.

I take pleasure in recommending such a fine remedy as Father John's Medicine. It does all that is claimed for it, and a great deal more. In my business as motorman on the cars I am exposed to all kinds of weather and have contracted cold upon cold, which had me in pretty bad health, with pains and aches all over my body. One of our men was giving Father John's Medicine to one of his children for a cold and it was doing his child so much good that he advised me to give it a trial, which I did. The result was that one of the large bottles entirely cured my cold, and the second bottle took all the pains and aches out of my limbs. I am feeling better now than I ever did, and have gained much in weight. I always keep it in the house, and if I catch cold or feel tired or weary a few doses always fixes me up all right. A number of our men are now using it with good results. Too much cannot be said in favor of such a wonderful remedy as Father John's Medicine. (Signed) Thos. J. Walsh, 532 N. 36th St., Philadelphia, Pa., motorman Philadelphia Rapid Transit Co.

RESTRAINED

From Effecting a Merger Have Been Two Gas Companies in West Virginia.

Huntington, W. Va., Feb. 18.—An injunction was granted by Judge John B. Wilkinson restraining the officials of the Triple-State Gas company from merging that company with the United States Natural Gas company, recently organized for consolidating the Triple-State company and the Kanawha Gas company of Charleston and extending the mains of the new company to Portsmouth, O., and other points. The suit is brought by Edward C. and Otto Germer of Erie, Pa., sons of Otto Germer, Sr., who organized and for a long time controlled the Triple-State company. Sensational allegations are made, among others that the officials of the company have conspired to weaken the gas supply and consequently decrease the value of stock. The United States company was recently organized with \$3,000,000 capital.

STATE NEWS

Mrs. Chadwick in Court.

Cleveland, O., Feb. 18.—When the Chadwick bankruptcy hearing was called before Referee Remington, Mrs. Cassie Chadwick was escorted from the jail and examined each of the claims against her in a critical manner and rejected a number of them wholly or in part. Among those rejected by Mrs. Chadwick was the claim of Freda Swanson, her maid, who presented a sworn statement showing that her employer owed her for seven months' service at \$45 per month. Mrs. Chadwick declared that she did not owe Freda so much. When a small bill for a manuring set was passed to Mrs. Chadwick for examination she disdainfully tossed it back to the attorneys, saying: "Why, that is absurd; I never owned such a thing in my life." The claims taken up at the session of the court were generally of minor importance, none of the big accounts being passed upon.

River Rising.

Cincinnati, O., Feb. 18.—A slight rise in the Ohio river led to a hope that the losses may be less than heretofore anticipated when the ice goes out. One more foot of water will put nearly every vessel pushed out on the bank once more afloat. Several vessels which were partly aground were floated, and a strip of water between them and shore reduces the possibilities of danger. The work with dynamite continues, and now that milder weather has come to the help of the river men they are hopeful of clearing vessels from the ice, which threatened to carry everything out with it when the break-up comes.

Protest Against Quarantine.

Lima, O., Feb. 18.—In spite of the board of health's orders prohibiting public gatherings on account of contagious diseases, a mass meeting of indignant citizens headed by the Merchants' Protective association was held in protest against the quarantining of the city. A committee of 10 physicians was appointed to investigate conditions, and many of them declare that 90 per cent of the so-called contagious cases is itch. Resolutions condemning the board's action and demanding the reopening of the schools and churches were passed.

Doctor Ohlmacher Resigns.

Columbus, O., Feb. 18.—By request of Governor Herrick and Attorney General Wade Ellis, Dr. A. P. Ohlmacher, superintendent of the Gallipolis state hospital for epileptics, handed in his resignation to the board at a meeting held here. The resignation becomes effective March 15. In the meantime the institution is to remain temporarily in charge of Dr. Pritchard. Ultimately it is expected that Dr. Tierney of Cleveland is to get the position. The steward, H. C. Barnes, who was suspended by Dr. Ohlmacher for alleged irregularities, was reinstated.

Drank a Quart of Whisky.

Cincinnati, O., Feb. 18.—John Nichols, colored, a newsboy, drank a quart of whisky on a wager here and died at the City hospital later, after lying in a stupor for many hours. As the result of investigation by the police, Samuel Becker, a prominent tailor, was arrested, charged with manslaughter. It is claimed that Becker bet Nichols, 15 cents that he could not drink a quart of whisky.

Twin Octogenarians.

Columbus, O., Feb. 18.—The home of Mrs. Edward C. Brown, southeast of the city, was the scene of a unique birthday anniversary celebration. Mr. Robert Nelson Livingston and Mrs. Martha Livingston Smith, who claim the distinction of being the oldest twins in Ohio, received their friends and relatives at the home of their niece upon the occasion of their eightieth birthday.

Geo. Priest's House Burned.

Pataskala, O., Feb. 18.—The house on the farm of Mr. George Priest on St. Joe road, was destroyed by fire on Thursday evening about 6 o'clock. The family moved about a year ago on a nearby farm and the vacant house was stored with baled hay and one corn sheller. The fire was not discovered until it was under such headway that nothing could be done to save either the house or the contents. It is not known how he fire originated.

Not a Place to Loaf.
The waiting room of the interurban station is being used as a loafing place and rendezvous for young people to an annoying extent. Officers have recently been called to clear the room of all who have no business there. Arrests will be made if the practice continues.

Mr. Keller Awarded a Prize.
Another well merited mark of appreciation has come to one of Licking county's best known and most successful farmers. Mr. Jacob F. Keller, the hustling farmer who resides two miles northwest of Newark, has just received word from the American Agriculaturalist, published in New York, that he has been awarded a prize for the best article on a farm topic. Mr. Keller took third prize. When the large number of competitors is considered this is certainly a creditable result.

Changed Location.
Mr. Henry S. Anderson, the well known and popular cigar manufacturer has changed his location from No. 7, South Fifth street, to a much more desirable location on the southwest corner of Fourth and West Main streets, formerly occupied by Foster & Taft, plumbers. Here Mr. Anderson has two nice rooms, the corner room, which makes a handsome retail cigar and tobacco store, and the west room, which will be used for manufacturing purposes. Mr. Anderson is deservedly one of the most popular cigar manufacturers in the city, and if you want a good smoke, his store is the place to get it.

DRUNKENNESS A TERRIBLE AFFLICTION

The world's greatest physicians agree that drunkenness is a disease and must be treated as such. It is not necessary to incur the publicity and expense of attending a sanitarium, but the disease of drunkenness can be cured right in the home by Orinole.

This great remedy is put up by a chemist, who, after many years of constant labor and research, combined the necessary ingredients that positively conquer the craving for liquor.

Orinole is put up in two forms. No. 1 (powder) can be given secretly in tea, coffee or food, without the patient's knowledge, as it is tasteless, colorless and odorless. Orinole No. 2 is put up in pill form, for the voluntary treatment from the grasp of alcoholic stimulants; this is in a convenient form to carry in the vest pocket. Either form costs \$1 per package.

Many cases in this city have been completely cured with four boxes of Orinole. Think of this little cost compared with the enormous price of a treatment at a sanitarium. The Orinole Company, Inc., Washington, D. C., guarantees to cure the craving for drink, or refund every cent paid for it. Write to them for a free book on "Drunkenness" mailed in plain envelope.

We are sole agents for this city, and heartily recommend Orinole. P. D. Hays, N. Side Square Newark, O.

When your child is ill you dislike to make it take bad tasting medicine. Hence it is well to know that Ayer's Cherry Pectoral is very pleasant. But it is a medicine, a strong medicine.

Time and time again we have published the formula of this cough medicine in the principal Medical Journals of this country and Europe, and have mailed it to nearly every physician in the United States.

So it follows that when your doctor orders it for coughs, colds, bronchitis, or consumption, he knows precisely what he is giving.

Physicians recommend their families to keep it on hand.

UGLY CHARGES

A West Virginia Statesman
Goes After Gov. White

BIG SENSATION IN SENATE

Chief Executive Accused Corrupt
Methods—Committee to
Investigate.

Charleston, W. Va. Feb. 18.—Charges were made by senators on the floor of the senate which may result in the impeachment of Governor White. The charges were made principally by Senator Caldwell, who was "slapped over the face," to use his own expression, by the special message of Governor White to the senate on Wednesday. This is the message which was returned to the governor to supply a newspaper clipping which concerned his political backers, Governor-elect Dawson and United States Marshal Elliott. Senator Caldwell said Governor White was guilty of dividing with the secretary of state the fees of the latter office in consideration of appointment. Governor-elect Dawson is the present incumbent. Caldwell also said a letter had been sent out from New York by a Charleston attorney offering to secure a reduction in license tax on foreign corporations in consideration of half the decrease secured by legislation. He asserted that White and Dawson were back of this letter. All of these charges, together with the charges that senators had accepted bribes to oppose or advocate pending legislation, will come under the review of an investigating committee, which was appointed.

A resolution for an investigation of the charges against the governor was offered, which provided that should the charges be found true the house should prepare and present articles of impeachment of Governor White. This was afterward amended and the mere investigation ordered.

In addition a resolution was offered to include in investigation charges of an alleged ante election deal with the Standard Oil company by the Republicans, which could not be substantiated in evidence adduced before the investigating committee which closed its session here last week. This resolution was not adopted, but will be considered.

DUNS' REVIEW

Weather Conditions Still Dominate the
Trade Situation—Railway Earnings
are Cautious.

New York, Feb. 18.—R. G. Dun & Co.'s weekly review of trade says: Weather conditions still dominate the trade situation. Low temperature and deep snow have interfered with traffic, and checked the revival of business that was well under way in most sections of the country. Retail distribution is not maintained, and the deleterious effects are visible in all outdoor work, while the interruption to movement of freight has affected manufacturing to some extent. Meanwhile, there is evidence that confidence in the future remains unshaken, preparations for spring and summer trade continuing unabated. Jobbing trade in dry goods is on a liberal scale. Railway earnings thus far reported for February were 19 per cent smaller than a year ago probably another result of bad weather. Dispatches from leading iron and steel centers indicate no check to progress.

Some girls can suggest oysters, after the show 17 different ways without mentioning it.

Wasted muscles and decaying bones. What havoc! Scrofula, let alone, is capable of all that, and more. It is commonly marked by bumps in the neck, inflammations in the eyes, dyspepsia, catarrh, and general debility. It is always radically and permanently cured by

STURDY FARMERS KEEP OFF ALL CATARRHAL ILLS BY TAKING PE-RU-NA.

MR. GUSTAV M. SCHMIDT
MR. HENRY SCHROEDER
MR. GEO. H. THOMPSON

Pe-ru-na
Cures
Catarrh
Wherever
Located.

Pe-ru-na a Necessity in the Home.

J. B. Alexander, Publisher of the "Fruit and Floral Guide, A Magazine of Horticulture," published in Hartford City, Ind., says of Pe-ru-na:
"I was afflicted with catarrh of the throat and head for over ten years. I was treated by many physicians, but grew worse until I was seldom able to go out in cold weather.
"About one year ago I was advised to try Pe-ru-na, which I did, and I am now entirely well of the catarrh.
"Pe-ru-na is a necessity in our home. With the first symptoms of a cold we use it, and are never afflicted with catarrh.
"I advise all who are afflicted with catarrh to try Pe-ru-na. There is certainly nothing equal to it as a catarrh medicine."—J. B. Alexander.

Pe-ru-na is a Systemic Remedy.
If Pe-ru-na will cure catarrh in one place, it will cure it in any other place, because it is a systemic remedy.

Pe-ru-na Always on Hand.

Mr. Fred Schnell, Lakeview, Erie Co., N. Y., writes:
"I had been a sufferer for more than thirty years with catarrh of the intestines. I had used a great deal of medicine to no avail, so I decided to try Pe-ru-na.
"I have now used thirteen bottles and can give you the joyful tidings that I have no more trouble. I always keep Pe-ru-na on hand."—Fred Schnell.

The people generally are very much misinformed as to the nature of catarrh. Catarrh is usually believed to be confined to the head, nose and throat. Later we sometimes hear of catarrh of the stomach and catarrh of the bladder. Seldom, if ever, do we hear of catarrh of any other organs.
It is not because these organs are not subject to catarrh, nor that catarrh of these organs is not a very common disease, but simply because it is not generally known that affections of these organs may be due to catarrh.

Had Catarrh Thirty Years.—Pe-ru-na Cured Him.

Mr. Gustav M. Schmidt, Spring Valley, Ill., writes:
"I had catarrh of the head and throat for over thirty years. It became worse every year.
"About three months ago I commenced to take Pe-ru-na and Manalin, and now I am entirely cured of that troublesome sickness. Your medicine is surely a blessing to mankind.
"You can truly say that you have not lived in vain, Doctor, and I thank you for the good you have done me. May you enjoy a long life to help suffering humanity."—Gustav M. Schmidt.

Dr. Hartman Makes Personal Use of Pe-ru-na.
In speaking of his own personal use of Pe-ru-na, Dr. Hartman says:
"For a number of years my professional duties have compelled me to be much on the road, traveling long distances by rail, night and day, exposed to all kinds of vicissitudes, sleeping and eating in different hotels continually, and through it all I have preserved myself from any derangement of the body resulting from catching cold.
"At the slightest evidence of a cold, a few doses of Pe-ru-na invariably checked it."

Mr. Henry Schroeder, Route 2, Napoleon, O., writes:
"I suffered for almost ten years with catarrh of the stomach and all doctoring was of no avail.
"I took nine bottles of Pe-ru-na and two of Manalin and am now entirely cured.
"I recommend the medicine to all who are afflicted with this disease. It is my household friend."—Henry Schroeder.

A Farmer's Talk to Farmers.

Before Dr. Hartman began the study of medicine he was a farmer boy. He was brought up on a farm in Southern Pennsylvania.
He belonged to that industrial, successful class of farmers known as the Pennsylvania Dutch, the best farmers in the world.
It was here that he early learned the lesson of pulling obnoxious things out by the roots.
Dr. Hartman's Method of Treating Catarrh.

Naturally, when he began the study of medicine his mind turned instinctively toward the removing of causes. He could not content himself with doctoring symptoms any more than his enterprising father could have contented himself by pulling off the tops of weeds to eradicate them from the soil.
The Doctor turned his attention early to the science of removing the cause of

At Work on the Farm.—Praises Pe-ru-na.

Geo. H. Thompson, Raleigh, Miss., writes:
"I have been cured of catarrh by your medicines, Pe-ru-na and Manalin. I had been afflicted with catarrh of the stomach about all my life, and was taken bad every spring and summer.
"I used several kinds of patent medicines, but they did me no good. I then took a treatment under an M. D., which did me but little good. By this time I had got where I could eat nothing but a little soup. I had severe pains, had lost in weight and could not do anything.
"I began taking your medicines, Pe-ru-na and Manalin. I then weighed 126 pounds, but after taking 17 bottles of Pe-ru-na and one bottle of Manalin, I weighed 166 pounds.
"I am now at work on the farm and feel well all of the time. I eat all I want to and my friends say that I look better than ever before. I will ever praise Pe-ru-na for its healing power."—Geo. H. Thompson.

Subjects Friday Afternoon and Night.

Hon. John Z. White, who is speaking under the management of the Henry George Lecture association of Chicago, was in Newark Friday and spoke at the High School in the afternoon and at Taylor Hall in the evening.

Discussing "Public Ownership of Public Utilities," Friday night, Mr. White said in part:
"The question of public ownership is interesting an increasing number of our citizens. That it is becoming or has become popular is evidenced by the increasing amount of space it occupies in papers, magazines and books. Like all questions it presents many phases. This is especially true if it be considered from a standpoint of expediency.

"A danger is supposed to arise from the greater number of public employees that would follow public ownership of public utilities. It is held that injection of so large a power into our political affairs should lead to a much greater corruption of public officials.
"This notion entirely overlooks the fact that these great concerns are already in politics—are in fact the chief factors of our party governments. Can it reasonably be maintained that these enormous forces (public in their nature) are less dangerous when in responsible private control, than they would be if brought openly and directly under government supervision?
"That they contain elements of social danger cannot be disputed. The question, however, is not how to eliminate all danger but what course involves least danger to the people.

"This question, like all other important matters, is best decided by taking a broad view of the situation. Public utilities are different from other utilities in that they require a public act as their foundation. The very name they have acquired is evidence of a distinctive characteristic. If a man would enter upon farming, mining or manufacturing he may do so upon equal terms with all others, but if he would supply transportation facilities, or telegraph, or would distribute or transmit intelligence by telephone or water, or on any other matter through pipes, he must first secure a legal grant. This grant involves a continuous way on over or through land. The grant being secured the grantee possesses a power under the

law, not possessed by each other citizen, and so becomes a privileged party. Equality under the law is interrupted.

"It is often said that the law may impose restrictions equal to the benefits of a grant of this kind, and thus maintain equality. As a mere matter of bookkeeping this is true, but human nature is a fact that must be considered, and where power is once granted common experience, as well as history, shows it will be used to the advantage of the grantee.

"The primary fact which takes public utilities out of the field of ordinary or competitive business must be kept clearly in mind. It is this fact that makes a legal grant necessary fundamentally. Men discover that by diversifying their occupation and then swapping products they can secure a greater result. If now we assert that each one has a right to produce and trade does it not follow that each one has a right of highway? That is, each man has a right to go across the surface of the grant of power over or in the highway to some of the members of a community, which grant is not equally enjoyed by all others, must give to grantees a power to levy tribute.

"To leave the establishment and maintenance of highways open to all is impossible for the reason that men disagree—honestly disagree—as to what is best. As a result one wants a highway in a given place, while another wants to raise grain on the same place. This conflict involves the right of all and the only mode of settlement is to recognize that the highway is the common right and therefore the people must act as a unit regarding highways. This is now done but it has become customary for the public to abdicate this trust in favor of private companies and then attempt with a

record of continual failure to regulate these companies.

"It is the physical conditions of life that take highways out of the class of competitive business. These conditions place highways in the control of the people as a unit and therefore their dispositions are properly determined by the majority.

"In truth if there were no functions to be filled by the people acting as a unit, there would be no reason for the existence of government. The fact that physical nature compels us to act as one man in the matters of keeping the peace making highways, etc., is all that gives the majority the right to rule—but it gives that right only in these matters. Public ownership of the public way is the only condition compatible with popular government."

"DIGNITY OF LABOR."

"The Dignity of Labor" was the theme Mr. White treated at the High School. He said in part:
"In order to appreciate or to judge of the dignity of labor, one must first determine the meaning of the word 'Labor.' Ordinarily the word labor suggests manual toil.

"We often hear a distinction drawn between hand labor and brain labor, with a suggestion of much dignity attaching to the latter. The fact is that the distinction does not exist, as may easily be shown by supposing two instances. First, as to hand labor, if we subtract from the rudeness of manual toilers the element of intelligence, the labor will wholly cease showing that hand labor is not possible unless brain labor is associated in the same individual. Second, as to brain labor. Is it possible for the greatest philosopher or the most learned scientist to convey one idea without some amount of muscular contraction? If not, are we not warranted in saying that brain labor is impossible unless hand labor is associated in the same individual?

"It apparently follows that the word labor necessarily includes both hand and brain energy, and that therefore the difference between hand labor and brain labor is of degree and not of kind. Labor is the useful exertion of the vital power of man. The brain may think now to harness a horse, the hand will come into action before the horse will be harnessed.

"Labor is always a means to an end—not an end in itself and is dignified in proportion as it teaches its purpose. Labor is expended in producing grain. It is dignified in each degree as the laborer becomes the owner of the grain produced. To the point that he owns it, and another enjoys labor without dignity, and it is a mean, shabby truth that to cause labor to be looked upon with contempt rather

er than with that dignity which is its right.

"A good pastor recently remarked, that it should always be borne in mind that a man might be a laborer and still be dignified, that if he were honest, sober and industrious he must be looked upon as a man of true dignity no less than those socially more prominent. When the good pastor was asked if his description did not make dignity depend on honesty and sobriety, rather than on labor, he did not answer readily, and when he was further asked (in view of the facts that food is produced by labor and each man must have food or die), if it did not seem true that no man can be truly dignified unless he does labor—that is not only is labor truly dignified, but labor alone is self-supporting. All who do not labor are necessarily drones.

"The good pastor was beyond his depth. It was suggested to him that all truth is consistent and therefore the ideas just advanced must in some way be harmonious with the profound doctrines taught by his profession. Maybe he is still guessing.
"Some one spoke of a menial employment, and was immediately asked to explain how it was menial, save in the matter of wages. Labor is dignified as it achieves its purpose, its purpose is its product; therefore it is dignified as it secures its product, and it lacks dignity as that product is secured by others. By this measure, how great dignity shall be accorded to the toilers of our great republic?"

Peculiar Disappearance

J. D. Runyan, of Butler, N. Y., laid the peculiar disappearance of his painful symptoms, of indigestion and biliousness, to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at Hall's Drug Store, price 25c.

Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

Uncle Josh Spruceby

Auditorium Tonight.

"Uncle Josh Spruceby" playing a return engagement, will be tonight's offering at the Auditorium.

FIELD'S MINSTRELS.

Doc Quigley, who has for so many years been one of the principals in the A. G. Field Greater Minstrel, has been engaged for another season and this year will appear in a special act which has been designated, "The Headwaiter." It is a satire on the importance and self-consciousness of the colored waiter. Every comedian of the organization participates in this act, as a colored waiter, and the other members assume the roles of guests at a dining hall. The take-off is very funny and Quigley's dance is said to be one of the most grotesque and comical he has ever given. At Field will be at the Auditorium, Monday, February 20. Seats now on sale.

PORTER WHITE'S "FAUST."

In Porter J. White's production of "Faust" at the Auditorium, Thursday, February 22, there are nine special electric effects, in addition to his own version of the famous "Broken"

scene; "The Rain of Fire"; "Electric Sword Dual"; "Stars"; "Morning Glories"; "Necklace"; "Skull," and "Circle of Fire"; not to mention electric ovals, snakes, bats, lizards and other weird, uncanny and bloodcurdling creatures, all apparently cheerful inhabitants of this gruesome stage Hades. Seats on sale.

MARY EMERSON.

In "His Majesty and the Maid," in which we are to see Mary Emerson and her excellent company on Thursday evening, February 23, at the Auditorium, we have reason to expect a very fine attraction, if we can credit the dramatic reviewers of the cities where Miss Emerson has already played. Miss Emerson is a very young woman, one of the youngest stars, but before heading her own company she had served her apprenticeship with some of the best-known actors. Intended originally for the concert stage, Miss Emerson early decided that that field was too limited, and going to New York, studied for the dramatic stage.

Her second season, while she was, too, a mere slip of a girl, she became leading woman for Mr. Louis James. With Mr. James, she was most successful, playing such parts as "Ophelia," "Desdemona," and "Juliet." Of her "Juliet," the dramatic reviewers said that she was one of the rare cases where an actress could not only play "Juliet," but was young enough to look it. Then followed two seasons with Richard Mansfield, with which actor she strengthened the good impression already made while with Mr. James. Then followed her appearance as "Alicia, the Maid," in "His Majesty and the Maid," and her success in this strong romantic play is now a matter of current theatrical history. Seats are now on sale.

ST. PATRICK'S DAY ENTERTAINMENT.

A rare treat is in store for all who attend the St. Patrick's Day entertainment, consisting of a lecture by Father Mulhane, followed by a drama presented by members of the Catholic Literary and Social Club, in the Auditorium. Don't forget the date, Friday, March 17th. Seats on sale at Wiles-Erman Drug Store.

THEATRICAL NOTES.

Close observers of things marks the decreasing number of midweek matinees at many of the city theaters, excepting holidays or other special days. Mrs. Patrick Campbell has fully recovered from her accident in Philadelphia recently, and will resume her tour in "The Sorcerer," in March. "The Education of Mr. Pipp" company left for Utica February 18, in care of Harry Selby Fulton. The first production was in the Majestic Theater on February 12. A brief tour, including Ithaca, Rochester and Syracuse will follow, and then it comes to the Liberty Theater, February 20—New York Dramatic News, February 18, 1905.

"A Chinese Honeymoon," will be here in March. "The Two Orphans," an all-star cast, is one of the attractions at the Auditorium early in March. This will be one of the big events.

Mary Emerson, in "Her Majesty and the Maid," which comes to the Auditorium, February 23, is meeting with great success everywhere, if the excellent press notices, which have been given can be taken at their face value. As an evidence of the pleasing character of the play return engagements have already been made in several of the larger cities, including Terre Haute and Evansville, Ind.

David Belasco has bought the dramatic rights to Robert Hichin's novel, "The Garden of Allah," and may write a play for Blanche Bates from it.

Rufert, the donkey, in "The Tenderfoot" company, was scalded to death by escaping steam while in the baggage car on the way from Reading to Altoona, February 8, three days before the appearance of the company here.

MR. GARRITY IN LEADING ROLE. Mr. T. L. Garrity has been engaged by the Catholic Literary and Social club to direct and to play the leading role in the drama to be given under their auspices on Friday, March 17, in the Auditorium. The public can rest assured of the excellence of this play. Mr. Garrity's ability is widely recognized and a treat is looked for on this occasion.

BAR BANQUET

WILL BE HELD THIS EVENING AT THE WARDEN.

Harris Divorce Case Not Yet Decided by Judge Seward—Jones vs. Hull, Court House News.

All arrangements have been completed for the annual banquet of the Licking County Bar Association, which is to be held at the Hotel Warden this evening. The members of the bar are expected to turn out in full force. Judge C. W. Seward will preside as toastmaster. The menu and program of toasts appeared in the Advocate earlier in the week.

In Common Pleas.

In the case of Edward Harris vs. Sarah Harris, an action for divorce on the grounds of gross neglect of duty and fraudulent contract, the court listened to some of the testimony in this case, and desiring to hear further evidence, the court has directed that the defendant's evidence be produced. J. H. Jones.

Ben. B. Jones vs. Anna White; the arguments will be made to the jury on Monday morning next.

Jones vs. Hull.

In the suit of J. B. Jones vs. Eli Hull et al., an action brought to recover attorney fees, Eli Hull as executor of the last will of his wife, has filed his answer and counter claim. In this pleading he recites the death of Mrs. Hull, February 4, 1905; that she left a will, naming him as executor; he admits the execution and delivery of contract sued upon in the petition; that the action was brought as provided in the contract it should be; that the action was compromised, and that Jemima Hull received an amount in excess of the sum of \$1000. And the defendant denies all the other allegations of the petition. By way of counter claim he says that F. M. Black, administrator of the estate of James J. Bosley, filed a petition in interpleader, asking that Jemima Hull should interplead her claim with one Nettie Ashley. That plaintiff did not make any answer to said interpleader; that he stated he was sick and unable to attend to said answer, and Jemima N. Hull employed other counsel to assist in the suit, employing Kibler & Kibler, paying them for their services. Defendant asks that he be discharged with his costs. McDonald.

Smith vs. Kinkade.

In the case of Andrew J. Smith vs. Noah M. Kinkade in which the plaintiff obtained a judgment in "Squire Atcherley's court" for \$132, and the costs, amounting in all to \$148.90, for work done for the defendant and for boarding his hands, an attachment was issued in the case, and the Granville Natural Fuel and Light company, was made garnishee, and 120 shares of the Granville Natural Fuel and Light company were attached. Saturday, under an order of sale issued by "Squire Atcherley," the 210 shares of stock were sold to E. W. Evans of Zanesville for \$150.

Real Estate Transfers.

S. M. Milholland and wife to W. E. Hephrey, 5 acres in Bennington township, \$650.

F. E. Jackson and wife to Edwin Saunders and Mary Ellen Saunders, 50 acres in Hartford township, \$2750.

Annie L. O'Bannon and Charles O'Bannon to Chas. T. Jones, 70.40 acres in Madison township, \$5000.

Lucinda Lucas to Elizabeth Baldwin, lot 2313 in Jones & Smucker's addition to Newark, \$25 and other considerations.

Mary H. Rowe and husband to Ransom Rowe, real estate in Johnstown, \$100.

Court Notes.

In the case of Frederick S. Wright, administrator, etc., against Rose Dean, the plaintiff has filed an amendment to the petition in this case by striking out the name of Perley Aiken and inserting in lieu thereof the name of Albert C. Aiken, as assignee of the interest and estate of Julia Aiken and of the heirs and devisees or legatees of said George B. Smythe, deceased. Kibler & Kibler, attorneys for plaintiff.

NEWARK TEAM

ACCOMPANIED BY 75 RED MEN, WENT TO ZANESVILLE.

Annual District Meeting Attended Friday Night by a Large Number. Banquet Followed.

Zanesville, Feb. 18.—The annual district meeting of the Haymakers of the Order of the Red Men last evening, under the auspices of Natchez tribe, was a red letter day in the affairs of the order. Haymakers from the various cities in this district, notably Newark, Cambridge, Roseville, Crooksville, Cambridge and Coshocton, were present.

There were 3 candidates given the Haymakers' degree. The work was put on by the Newark Haymakers, who came to the city 75 strong. They brought along with them the Haymakers' band, the only musical organization of the order in the state. The band was dressed out in country costume and as a rule band they were incomparable.

The ceremonies were conducted by Dr. S. E. Lovell, the chief Haymaker, followed by a banquet.

THE REAL TEST.

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vipers may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair? No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use." It is a delightful dressing, clear, pure and free from oil or grease. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
